**DECISION**

The summary was presented by D.G (Management) CDA. It was briefed to Board that since the promulgation of ICT Local government Act 2015, Metropolitan Corporation Islamabad (MCI) had started partial operation in rural areas a few years ago. But no proper garbage collection mechanism devise by the MCI in densely populated rural areas. Although CDA had allocated billions of rupees to Sanitation Directorate, MCI for this purpose yet no satisfactory result achieved. In order to ensure smooth and effective services delivery in the capital city, CDA has been assigned the administrative control of the following formations from MCI after four years (i.e. all directorates of Environment Wing, Directorates of BWM, Water Supply, W&S Development, MPO, M&RM and including the Sanitation Directorate, City Sewerage and Street lights etc), in the light of recent Cabinet decision conveyed through MOI, Government of Pakistan vide No.6-14/2020-CDA dated 05.10.2020.

It was also discussed that out of 1,603 sanctioned posts of cleaners; only 639 posts are filled, while 964 posts have been lying vacant in the sanitation Directorate. Besides 639 regular persons working on the strength directorate, 1,200 private cleaners through the contractor have been engaged by the directorate. Whereas, the garbage collection of Sectoral Area including; Model Towns had recently been outsourced to private contractors. Furthermore, it was discussed that instead of relying on the contractor's machinery and equipment; the authority would procure its own machinery including Skip lifter, Dumper, Tipper, Garbage collator, Mechanical Vacuum Cleaner / Sucker and Mechanical sweepers etc.

It was further highlighted that there should be need assessment on the subject matter, which analyzed the all aspect, therefore, a proper secondary collection and transportation system should be introduced in all thickly populated rural areas and Sanitation directorate should be strengthened by procuring new machinery and equipment etc. There will be no harm to procure new machinery and equipment etc by creating permanent asset of the CDA.

After due deliberation and on the basis of information/inputs of the summary, board decided to strengthen the Sanitation Directorate that CDA's previous optimum strength for machinery and equipment would be compared, if the CDA meet the shortfall and intend to purchase machinery and equipment for its permanent assets and rather than for the entire city as well. CDA had already spent the expenditure of Rs 120 million per month and paid up to Sanitation Directorate MCI, but CDA did not build its own permanent resource. Moreover, it would reduce the operation & maintenance cost gradually. CDA would only make new operation & maintenance contract for hiring the services of human resource in future. Therefore, the CDA Board approved the following to improvise or low cost solution and enabling to maintain cleanliness / sanitation conditions in Islamabad Capital City:-

- a) Extend secondary garbage / solid waste collection / cleaning of major roads etc from densely populated rural areas which include; Bhara Kahu including Kot Hathial (South) & Koht Hathial (North) etc,

Lehtrar Road (Khanna Bridge To Thanda Pani), Frash & Humak Model Towns, etc Islamabad (ICT Area).

- b) Hiring the services of 500 cleaners for CDA maintained sectors through the contractor, initial period of one year,
- c) Overcome the short fall as per previous optimum strength for machinery and equipment and creating permanent assets procurement of new machinery and equipment be made through locally manufactured / local made such as Truck –mounted Mechanical Vacuum Cleaner / Sucker, Tractor mounted Mechanical Sweepers, Tractor with Buckets, Skip Lifters, Garbage Compactors, Dump Trucks and Mini Tipper for mechanical collection.

11258/1374/BM/'20  
06-11-'20/17<sup>th</sup>

**DECISION**

The summary was presented by Member (P&D) CDA. After due deliberation and on the basis of information/inputs of the summary, board principally agreed however, subject to prior Environmental Impact Assessment (EIA) before any action is taken. While discussing the utility of farm houses in capital city, the issue of price hike of essential commodities and food supply was discussed in depth and it was realized that farm houses were primarily allotted to produce fruit and vegetable to overcome the demand of the capital city. The Board constituted a team headed by Director BCS-II to examine the production of all farm houses and three months time will be given to the owners of farm houses for cultivation of essential commodities and Food supply products in their farms. Since, a nursery plot had been retrieved recently, therefore, CDA will establish a Farmer Market within a period of three months and farmers would sell their products in the Farmer Market owned and maintained by CDA, while ICT would regulate the prices. The Board directed that a summary in this regard be presented to CDA Board for appropriate decision.
